CUP21.g.43/60

——*Ingenio et Induſtria vigent Omnia.*

This is to acquaint the CURIOUS.

There is to be ſeen in a commodious Room, at the Sign of the *Kings arms* in this Town

NEVILL's Grand Machinery:

WHERE thoſe who are endowed with the noble Spirit of Curioſity, and all Lovers of ſound Integrity may have the Pleaſure of ſeeing this wonderful piece of Work, which may be called the Wonder of the World; the like Performance was never exhibited to Public View; which is now brought to Perfection; and by virtue of the Mechanical Powers, upwards of Three Thouſand different Movements, and by Figures One Foot and a Half high, working as natural as Life, which preſents all the different Branches of the WOOLLEN MANUFACTORY, from the Sheeps back to the making and dreſſing a Piece of Cloth and Stuff. This curious Piece of Work has had the honour to be ſhewn to their Majeſties with the greateſt Satisfaction, and by their Order is to be exhibited all over this Kingdom for the good of the Public. This delightful Piece of Art is allowed, by the beſt judges, to be the greateſt Curioſity and Ingenuity ever offered to the Public.

Invented and Made by *EDMUND NEVILL.*

THIS curious Piece of Work is to be ſeen without loſs of time any Hour of the Day, from ten in the Forenoon till two in the Afternoon, and from three till eight at Night, it may be ſeen by any Number of Perſons; Ladies and Gentlemen only one Shilling each Perſon, working People and Servants Sixpence each, with Company, and two Shillings for a ſingle Perſon, though a Price much inferior to the great Expence and Merit of this curious Piece of Work.

THESE Figures repreſent Youth and Age, from Eight Years old to Eighty, working like Men, Women and Children. There is nothing in life can equal it. You are preſented with the Shepherd and the famous Biſhop Blaze, who firſt invented the Art of Combing Wool: and Jack of Newbury, who was the greateſt Clothier ever known; The Sheep-ſhearer, Wool-ſorter, Wool-beater, Wool-waſher, Scribler, Carder, Comber, Spinner, Reeler, Doubler, Twiſter and his Man, Dyer, Spooler, and Warper, and the Cloth-Loom, with two Figures moving in it as natural as Life; with the Fulling-Mill, Fulling the Cloth, and the Burler, Burling the Cloth; and two Engines, newly invented, which will be of great Uſe in the Art of Weaving. Alſo a Loom and Figure in it, weaving a Flower'd Stuff; and an Engine invented to make the flower upon the Stuff, the Quill-winder: Alſo a New invented Mill for napping Cloath, with a Figure doubling the Cloth, and the Rower rowing the Cloth, the Shearman ſhearing it, and the Hot-preſſer preſſing it.
